

HR Policy - Security

Purpose

This document defines the security practices required to protect company assets, employees, and confidential information.

The policy applies to all employees, contractors, and visitors accessing company premises or systems.

Physical Security

All employees must display their identification badges while inside office premises.

Access to restricted areas such as server rooms is limited to authorized personnel only.

Visitors must sign in at reception and be accompanied by an employee at all times.

Security cameras are installed to monitor premises and ensure safety compliance.

Information Security

Employees must use strong passwords and should not share credentials with others.

Confidential data should only be accessed on a need-to-know basis.

Company devices must have updated antivirus and security patches.

Sensitive information should not be transmitted over unsecured channels.

Incident Management

Security incidents such as data breaches or unauthorized access must be reported immediately.

The IT team will investigate and take appropriate action to mitigate risks.

Employees must cooperate during security investigations.

Failure to report incidents may result in disciplinary action.
